

FUS Contract Terms and Conditions

Sample Question: Will [company] receive [#] or more INFUSE awards in FY[year]?

Product Code: FUS[two letter company code]

Instructions: The INFUSE Awards are published by the US Department of Energy (“DOE”) through the INFUSE program. DOE does not publish a fixed release date or time in advance; awards have historically been announced on an annual basis, with the exact timing depending on the timing of the completion of the peer-review and selection process. The DOE and the INFUSE program typically make award information publicly available through official DOE communications and the INFUSE program website. For purposes of this contract, the applicable fiscal year refers to the INFUSE award cycle designated by DOE for that year and includes all INFUSE awards announced as part of that cycle, regardless of the specific calendar date on which the awards are published. This contract is not subject to early Resolution.

Underlying: The INFUSE Awards Forecast Contract is resolved based upon the number of INFUSE awards received by the specified company in the award cycle corresponding to fiscal year identified in the contract, as evidenced by listings on the official INFUSE Awards page published by the U.S. Department of Energy (“DOE”) through the INFUSE program. The Underlying can be accessed [here](#), where individual INFUSE award entries are published and may be browsed or searched by award cycle.

Each distinct INFUSE award entry on the INFUSE Awards page that lists the specified company as the recipient counts as one (1) award for purposes of this contract. Minor variations in the company’s name (such as punctuation, capitalization, or corporate suffixes) do not affect resolution; however, awards made to parent companies, subsidiaries, or affiliated entities do not qualify unless such entities are explicitly named in the contract. If multiple INFUSE award rounds are published for the applicable award cycle, all qualifying awards across such rounds are aggregated for purposes of resolution. Links are provided for informational purposes only and the source agency may decide to publish the data at a different location at any time.

Source Agency: US Department of Energy

Minimum Tick: The Minimum Tick size for the referred Contract shall be \$0.01.

Listing Cycle: ForecastEx will list Contract expirations at its discretion.

Thresholds: For each Contract expiration, thresholds will be listed at ForecastEx's discretion.

Position Accountability: The position accountability level is 250,000 Contracts in any one Forecast Market.

Last Trading Time: Same as Resolution Time.

Payout Criteria: The Settlement Value of each Contract is \$1.00 or \$0.00 depending on the Outcome of the Contract. If the Outcome of the Contract is “Yes”, then holders of the “Yes” Position will be entitled to receive the Settlement Value of \$1.00 per contract and holders of the “No” Position will receive \$0.00. If the

Outcome of the Contract is “No”, then holders of the “No” Position will be entitled to receive the Settlement Value of \$1.00 per contract and holders of the “Yes” Position will receive \$0.00.

Resolution Time: When the US Department of Energy releases the FY[year] INFUSE Award recipients.

Changes in Resolution Time: The Resolution Time of a Forecast Contract is dependent on the time that the Source Agency releases the Underlying data. There are circumstances in which ForecastEx will change the Resolution Time of a Contract as described below:

1. **Delay by Source Agency:** If the Source Agency delays the release of the underlying data required for Resolution, ForecastEx will delay the Resolution Time of the Contract until such data is released. In these circumstances, ForecastEx will release a public notice to its website informing Market Participants that the Resolution of the Contract has been delayed and release a second notice to its website informing Market Participants when the Contract is resolved.
2. **Change in Release Schedule:** ForecastEx sets the Resolution Time of each Contract based on either the published or anticipated release schedule of the Source Agency for the underlying data. If the Source Agency amends its release schedule or announces that it will publish the underlying data at a different time than anticipated, ForecastEx may, at its sole discretion, amend the Resolution Time of the Contract to match the updated release schedule when doing so is necessary to ensure the accurate and fair resolution of the contract. In these circumstances, ForecastEx will publish a public notice to its website informing Market Participants of the revised Resolution Time.
3. **Event Review Process:** In accordance with ForecastEx Rule 415, ForecastEx may, at its sole discretion, initiate the event review process prior to Settlement which may delay the Resolution of a Contract. In these cases, ForecastEx will publish a public notice to its website informing Market Participants that the Contract’s Outcome is under review.
4. **Early Resolution:** If a Forecast Contract Resolves based on whether a specific event occurs before a defined point in time, it will be subject to early resolution. For these Contracts, if the Outcome of the contract becomes determinable prior to the scheduled Resolution Time – either because the event has occurred (resolving “Yes”) or because it can no longer occur (resolving “No”) – ForecastEx may, at its sole discretion, accelerate the Resolution Time of the Contract in accordance with ForecastEx Rule 413. Whether or not this Contract is subject to early resolution is specified in the Instructions section.

Expiration Time: Same as Resolution time.

Settlement Date: Unless the Outcome of the Contract is under review in accordance with ForecastEx Rule 415, Settlement of the Contract will occur no later than the day following Expiration Time.

Trading Restrictions: In accordance with ForecastEx Rule 509(h), persons are prohibited from participating in INFUSE Awards Forecast Contracts if they: possess any material non-public information regarding the Contract, are employees of the Source agency, or are decisionmakers, who directly or indirectly have any influence on the Outcome of the Contract.
