

INCAC Contract Terms and Conditions

Sample Question: Will the CAC 40 settle above [XX,XXX] on [date]?

Product Code: INCAC

Instructions: French Market Index Forecast Contracts settle based on the daily settlement price of the CAC 40 index¹. ForecastEx will use the official closing price of the CAC 40 index, which is published at the close of every French trading day at 5:35 PM CET which equates to 10:35 AM CT (9:35 AM CT when CT and CET are offset by daylight saving time). Non-trading days for Euronext Paris² can be found [here](#). Should Euronext Paris experience an unplanned closure, the contract will resolve to the closing price of the next trading day. This contract is not subject to early resolution. Links are provided for informational purposes only and the source agency may decide to publish the data at a different location at any time.

Underlying: The underlying is the value of the CAC 40 at the close of trading on Euronext Paris on the date specified in the Event Question. ForecastEx will resolve the French Market Index Forecast Contracts by referencing online financial information services including, but not limited to, Google Finance. ForecastEx will use the closing price of the CAC 40 index to resolve the contract.

Resolution Time: 10:35 AM CT when ForecastEx resolves the contract (9:35 AM CT when CT and CET are offset by daylight saving time).

Changes in Resolution Time: The Resolution Time of a Forecast Contract is dependent on the time that the Source Agency releases the Underlying data. There are circumstances in which ForecastEx will change the Resolution Time of a Contract as described below:

1. **Delay by Source Agency:** If the Source Agency delays the release of the underlying data required for Resolution, ForecastEx will delay the Resolution Time of the Contract until such data is released. In these circumstances, ForecastEx will release a public notice to its website informing Market Participants that the Resolution of the Contract has been delayed and release a second notice to its website informing Market Participants when the Contract is resolved.
2. **Change in Release Schedule:** ForecastEx sets the Resolution Time of each Contract based on either the published or anticipated release schedule of the Source Agency for the underlying data. If the Source Agency amends its release schedule or announces that it will publish the underlying data at a different time than anticipated, ForecastEx may, at its sole discretion, amend the Resolution Time of the Contract to match the updated release schedule when doing so is necessary to ensure the accurate and fair resolution of the contract. In these circumstances, ForecastEx will publish a public notice to its website informing Market Participants of the revised Resolution Time.
3. **Event Review Process:** In accordance with ForecastEx Rule 415, ForecastEx may, at its sole discretion, initiate the event review process prior to Settlement which may delay the Resolution of a Contract. In these cases, ForecastEx will publish a public notice to its website informing Market Participants that the Contract's Outcome is under review.
4. **Early Resolution:** If a Forecast Contract Resolves based on whether a specific event occurs before a defined point in time, it will be subject to early resolution. For these Contracts, if the Outcome of the contract becomes determinable prior to the scheduled Resolution Time – either because the event has occurred (resolving “Yes”) or because it can no longer occur (resolving “No”) – ForecastEx may, at its sole discretion, accelerate the Resolution Time of the Contract in accordance with ForecastEx Rule 413. Whether or not this Contract is subject to early resolution is specified in the Instructions section.

Expiration Time: Same as Resolution time.

Settlement Date: Unless the Outcome of the Contract is under review in accordance with ForecastEx Rule 415, Settlement of the Contract will occur no later than the day following Expiration Time.

Trading Restrictions: There are no trading restrictions for French Market Index Forecast Contracts other than anyone with material non-public information regarding resolution data.
